

DOUBLE MATCH POINT

USTA NORTH CAROLINA

DOUBLE MATCH POINT APP

DoubleMatchPoint mobile app to
be used for 2021 state
tournaments

APRIL 1, 2021

USTA North Carolina is excited to announce the usage of the DoubleMatchPoint (DMP) mobile app for its 2021 state tournaments.

DoubleMatchPoint is a mobile app that helps league tennis players manage team communications, scheduling and scoring. The app's market-leading technology will upgrade the tennis player experience for state tournaments.

Usage of the DMP app is mandatory for all tournament participants. Due to COVID-19, usage of this free app will strengthen USTA North Carolina's Safe Play initiatives and allows NC state tournaments to occur safely. In addition to allowing safe and instant score reporting, the app will provide tournament participants with court assignments, weather updates and announcements.

Mic Wallace, Director of Tennis at Walnut Creek Country Club, said the app provides a touchless exchange for users and improves communication instantly.

"It's an easy-to-use app that helps me quickly find my schedule, mark my availability, look at line ups and view results," Wallace said.

App user, Arvind Nagarajan, said DMP is a great solution.

"It makes it easy to communicate within our team and makes the entire admin process around lineups, scoring and availability seamless."

The DMP app will also serve as the registration location for all tournament participants. All participants must have the app downloaded at least two weeks prior to their scheduled tournament. USTA NC and DoubleMatchPoint will provide training on the app to captains, volunteers and players through meetings and video resources.

App product director, Mike Carter, said the app will "digitize the paper process" of tournaments.

"We want to put more tools into hands of tennis players so they can spend more time playing and less time organizing," Carter said.

The free app works with iOS and Android devices and can be downloaded instantly from the Apple App Store and Google Play Store. Additional video resources for app usage can be found on USTA NC's website at nctennis.com/app.
